7. Interest and Repayment

Interest will be paid quarterly each financial year on 30 October, 30 January, 30 April and 30 July until maturity. The first interest will be calculated on a pro-rata basis, from the settlement date to the first interest payment due date using the following formula:

$$\text{Interest amount} = \left[\frac{\text{amount allotted} \times \text{coupon rate}}{4} \right] \times \frac{\text{number of days of accrued interest}}{\text{number of days in quarter}}$$

For example:

Amount Allotted: \$100,000

Settlement Date: 15/04/2022

First Interest Payment Date: 30/04/2022

Coupon Rate: 4.00%

Number of days in the quarter i.e.
number of days from last interest date to
next interest date: 91 days

Number of days of accrued interest i.e.
number of days from settlement date to
first interest payment date: 15 days

Maturity Term: 10 years

Therefore; the first interest payment received by the bondholder will be:

$$\left[\frac{\$100,000 \times 4.00\%}{4} \right] \times \frac{15}{91} = \$164.83$$

Note: Interest thereafter will be \$1,000 every quarter.

Interest due will be paid by the Registrar directly into the bondholder's nominated commercial bank account through FIJICLEAR. The initial nominated commercial bank account will be the default interest payment account for any additional investment into Viti Bond. In the case of joint bondholders, interest will be paid to the person first named on the tender form. Bondholders may liaise directly with their commercial banks to confirm receipt of funds.
