Downside risks to the Outlook

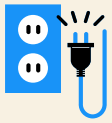

Geopolitical conflicts and renewed trade tensions

Volatility in global commodity prices

Accelerating climate and weather-related risks (El Niño)

Electricity reliability and critical infrastructure risk

Cybersecurity & digital infrastructure risk

Migration of skilled workers and persistent skills gap

Ageing & limited infrastructure capacity

Rising drug abuse, crime rates, HIV, and corruption

Upcoming national elections may prompt a cautious 'wait & see' approach

Regulatory and administrative constraints

Tighter monetary conditions in trading partner economics

Inflation and cost -of-living pressures
